## **ITI School in Hemophilia 2020 Award Recipient**

**Courtney E. Lawrence, MD, MS, Assistant Professor**

**Johns Hopkins School of Medicine**

**Mentors: Michael Streiff, MD**

**Course Title: "ITI School in Hemophilia" in Malmö, Sweden**

Dr. Dr. Courtney Lawrence, MD received her medical degree from Virginia Commonwealth University School of Medicine (Medical College of Virginia) in Richmond, VA. She completed her residency training in Pediatrics at the Children's Hospital of The King's Daughters in Norfolk, VA and her fellowship training in Pediatric Hematology/Oncology at Children's National Hospital in Washington, D.C., where she also obtained a master's degree in health sciences in clinical and translational research at George Washington University. She completed a fellowship in Transfusion

Medicine at Johns Hopkins University, where she is currently an Assistant Professor working in the divisions of Transfusion Medicine and Pediatric Hematology. With a clinical focus in hemostasis and thrombosis, she is an associate director in the Hemophilia Treatment Center and co-director of the pediatric anticoagulation management and blood factor stewardship committees. Through participation in the Malmö course, Courtney has developed an appreciation for the important role of immunogenetics in inhibitor development and individual response to immune tolerance induction, as well as international practice changes in the new era of emicizumab therapy.
