Outstanding Hematology Faculty Opportunity at Temple Health: Discover what makes this Leading Academic Medical Center one of Philadelphia's best workplaces!

The Department of Medicine at the Lewis Katz School of Medicine seeks a fellowship-trained hematologist interested in classical and malignant hematology and medical education. Clinical responsibilities will include inpatient attending coverage on the hematology consult service and outpatient hematology clinics. The new faculty member will also participate in teaching fellows, residents, medical students, and physician assistant students and participate in clinical and/or translational research. Candidates will benefit from mentorship from an experienced faculty within the Department and practice out of the flagship Temple University Hospital, a 746-bed tertiary care facility with robust clinical hematology and oncology programs adjacent to the Medical School. Applicants must be BE/BC in hematology, eligible for licensure in the Commonwealth of Pennsylvania, and possess academic credentials that qualify for a faculty appointment at the Assistant or Associate Professor level.

Faculty of the Section of Hematology are members of the Fox Chase Cancer Center at Temple University Hospital. The Cancer Center is located in a recently opened ambulatory care center and offers state-of-the-art outpatient care and infusion services. Radiation therapy, surgical oncology, gynecologic oncology, nutrition, bloodless medicine, palliative care services, and an active clinical trials research unit are available on-site. An active transfusion medicine service, apheresis service, dedicated hematopathology service, molecular genetics, and coagulation labs are also on-site. The FACT-accredited Fox Chase-Temple University Hospital Bone Marrow Transplant Program is located off-site. Temple University Hospital is a site for active lung, heart, liver, and kidney transplant programs and a primary teaching site for the Temple University Hospital-Fox Chase Hematology/Oncology Fellowship program, which involves 19 fellows. Research opportunities are available within the Sol Sherry Thrombosis Research Center, Fels Cancer Institute of Temple University, and Fox Chase Cancer Center.

Temple Health is one of Philadelphia's leading academic medical centers, with 21 clinical departments, eight basic Science Departments, 13 Research Centers (all engaged in patient care education and research), and more than 1,000 physicians and scientists. Our highly skilled clinical faculty are committed to providing state-of-the-art patient care and medical education and facilitating the discovery of novel therapies.
