Dr. Earl Davie's research has elucidated many areas of coagulation and led to effective treatments for patients with a range of bleeding disorders. He and his colleagues devised the revolutionary Waterfall Sequence for Blood Clotting and then identified and characterized components of the system throughout the 1960s and '70s. The goal of the Earl W. Davie Symposium is to disseminate advances in the field of hemostasis-thrombosis, as applied to innate immunity, infectious diseases, inflammation and cancer. Attendees comprise physicians, scientists, trainees at all levels, paramedical personnel and patients.

Drs. Sheldon Naiman and Linda Vickars were hematologists at the University of British Columbia, and active participants in the Centre for Blood Research. Both were passionate about promoting education, training and research in benign hematology.

With funding from the Sheldon Naiman and Linda Vickars Endowment Fund, the CBR will support travel and accommodation expenses for 15 trainees (undergrads, MSc, PhD, PDF, RA, MDs-in-training, para-medical personnel) to attend the Earl Davie Symposium.

Applicants must submit a 250 word (max) abstract for either an oral (if selected) or poster presentation relevant to the overall goal of the symposium. The application must be accompanied by an institutional letter from the PI or Dept head that confirms the training/professional status. **Deadline for receipt of applications is October 11, 2019.** Successful applicants will be notified 7-10 days later.

Expenses will be reimbursed to a maximum of **USD 1,500** after the meeting upon submission of original receipts.

Registration is free. For those wishing to attend, please register at www.cbr.ubc.ca

Please send applications directly to:

   Stefanie Mak, PhD  
   Education Program Manager, CBR

The UBC Centre for Blood Research presents

THE EARL W. DAVIE SYMPOSIUM

NOVEMBER 13, 2019

UBC ROBSON SQUARE, 800 ROBSON ST, VANCeyer

Special Guest Speakers: Nancy Berliner, Bob Montgomery, David Lillicrap

Register: https://tinyurl.com/EWD2019registernow

Draft Program

7:15 – 8:00  Registration and Breakfast
8:00 – 8:10  Ed Conway, MD, PhD, UBC, Opening Remarks
8:10 – 8:30  Joe Italiano, PhD, Harvard U. “New insights in platelet disorders”
8:40 – 9:10  Naiman-Vickers Professorship: David Lillicrap, MD, Queen’s U. “The future of hemophilia care: Molecular promises fulfilled”
9:10 – 9:20  Patient presentation
9:25 – 9:45  Jorge DiPaola, MD, Washington in St. Louis, “-Omits and bleeding disorders”
9:55 – 10:05 Trainee
10:10 – 10:40 Coffee break and posters
10:40 – 10:50 Patient presentation
10:55 – 11:05 Trainee
11:10 – 11:40 Keynote, Dr. Robert Montgomery, MD, Versiti – Blood Center of Wisconsin, “Cellular relationships of VWF with FVIII – what we know and don’t know”
11:55 - 12:15 “Shot-gun” talks
12:15 - 1:15 Buffet lunch and posters
1:15 – 1:45 Keynote, Nancy Berliner, MD, Harvard U. “Everything you need to know about hemophagocytic lymphohistiocytosis
2:00 – 2:20 Nigel Mackman, PhD, UNC Chapel Hill, “Mechanisms underlying cancer associated coagulopathies”
2:30 – 2:40 Patient
2:45 – 3:05 Katerina Akassoglou, PhD, UCSF, “Role of coagulation proteins in neurologic diseases”
3:15 – 3:30 Trainee talks
3:40 – 4:10 Coffee and posters
4:10 – 4:30 Trainee talks
4:40 – 5:00 Jonathan Lindner, MD, OHSU, “Novel approaches to vascular imaging”
5:10 – 5:20 Closing remarks and awards
5:20 – 6:00 Light food and drinks
