

Rochester, New York

## **Benign Hematologist – Open Rank**

### **Call for Candidates, Nominations and Referrals**

**The Organization:** The University of Rochester’s Division of Hematology-Oncology and Wilmot Cancer Institute (WCI) are the major resource for comprehensive cancer care, research, education and community outreach in central New York state. WCI, a component of Strong Memorial Hospital, offers patients and their families comprehensive services, including one of Upstate New York’s largest blood and marrow transplant programs, and the Rochester area’s only ACOS-accredited breast cancer center. WCI is home to the region’s first survivorship clinic and offers clinical trials of new therapies and options that may not be available anywhere else Upstate. WCI employs more than 130 physicians providing oncology care, more than 400 registered nurses and advanced practice providers, and a team of scientists who investigate many aspects of cancer, with an emphasis on how best to provide precision cancer care.

**The Opportunity:** The hematology-oncology division at Wilmot Cancer Institute, located at the University of Rochester, is recruiting an outstanding hematology board-certified/board eligible clinical investigator for an expanding academic and clinical program. Reporting to Michael Becker, MD, he/she will join a team of benign hematologists who work collaboratively with the other members of the division. A three-year ACGME accredited fellowship program in Hematology/Oncology is offered, which requires a 3-6-month rotation in the benign hematology clinic.

**The Candidate:** The successful candidate must have a Doctor of Medicine degree (MD or MD/PhD), and be board certified/board eligible in Hematology. Successful applicants will have demonstrated outstanding research relevant to benign hematology and are expected to establish or have established independent or collaborative research programs having the potential for NIH level grant or other lines of funding support. Additionally, the candidate will be expected to advise fellow, residents and medical students and should possess creativity and strong interpersonal skills in order to work in a collaborative and diverse faculty. Faculty rank and line will be determined by the qualifications and experience of the successful candidate.

**The Community:** Rochester consistently receives high rankings nationally as a “most livable city,” for overall quality of life, and as one of the very best places to raise a family. Rochester enjoys economic stability and a level of arts, culture, sports and dining comparable to that of many larger cities. Please visit the following websites for additional information about Rochester: [www.visitrochester.com](http://www.visitrochester.com), [www.rochestermadeforliving.com](http://www.rochestermadeforliving.com), or [www.cityofrochester.gov](http://www.cityofrochester.gov).

***University of Rochester/Wilmot Cancer Institute is an equal opportunity/affirmative action employer.***

**Confidential inquiries, nominations, and referrals should be submitted to:**
