Hasbro Children’s Hospital and Rhode Island Hospital Lifespan Cancer Institute
Nurse Practitioner - Division of Hematology/Oncology

The Advanced Practice Provider (NP/PA) will be an integral member of the Division of Hematology/Oncology at both Hasbro Children’s Hospital and Rhode Island Hospital Lifespan Cancer Institute providing care for children and adults with bleeding and clotting disorders and other benign hematologic disorders through the Rhode Island Hemostasis & Thrombosis Center. The center specializes in the diagnosis, treatment, and management of bleeding and clotting disorders across the lifespan from neonates through adults. The APP will spend approximately 75% of their time with the pediatric population and 25% with the adult population.

One day per week on average will be dedicated to urgent visits and infusion center coverage in the pediatric clinic. Opportunities to perform procedures such as bone marrow biopsies and lumbar punctures are available. The candidate will work alongside a multidisciplinary healthcare team to provide care to our patients and will report to the APP manager for the Division of Pediatric Hematology/Oncology.
