## HTRS/Novo Nordisk 2017 Clinical Fellowship Award in Hemophilia and Rare Bleeding Disorders Recipient

**Michelle T. Chi, MD**

**University of Tennessee Memphis**

**Hemophilia & Thrombosis Treatment Center of Memphis**

**Mentor: Sandeep Rajan, MD**

Dr. Michelle Chi is a fellow in adult hematology/oncology at the University of Tennessee Health Science Center (UTHSC)/West Cancer Center in Memphis, TN. She graduated from the University of Tennessee Knoxville and received her MD from UTHSC. She completed her Internal Medicine residency training at Virginia Commonwealth University in Richmond, VA. During her fellowship, she spent several months in

The hemophilia clinic as well as the coagulation laboratory and developed a strong interest in bleeding and clotting disorders. As an HTRS/Novo Nordisk Clinical Fellow, she will receive dedicated clinical training in the care of patients with hemophilia and other disorders of hemostasis under the mentorship of Dr. Sandeep Rajan, Director of the Hemophilia & Thrombosis Treatment Center of Memphis. Dr. Chi plans to work on multi-disciplinary, patient-centered methods for improving the transition of care from pediatric to adult hemophilia care, with an additional focus on women's health. Her interests include strengthening/standardizing interactions between pediatrics, adults, and obstetric/gynecologic care to improve management of adolescent/young adults with bleeding disorders. She also hopes to assist with her mentor's research in studying molecular markers in development of inhibitors.
