HTRS 2017 Mentored Research Award Recipient

Michelle Sholzberg, MDCM, MSc, FRCPC

**Clinical and Laboratory Hematologist, Assistant Professor, Associate Scientist
St. Michael's Hospital, Li Ka Shing Knowledge Institute, University of Toronto
Toronto, Ontario, Canada**

Mentor: Paula James, MD, FRCPC

Co-Mentor: Andreas Laupacis, MD, MSc, FRCPC

Project Title: "Does the Self-administered Bleeding Assessment Tool score accurately predict perioperative bleeding?"

Dr. Sholzberg received her MDCM and residency training in Internal Medicine at McGill University and she completed additional postgraduate training in Hematology at the University of Toronto. She has also completed a research hemostasis fellowship in Toronto. Dr. Sholzberg has a Master of Science degree from the University of Toronto in Clinical Epidemiology and Health Care Research. She is a clinical hematologist with a focus on bleeding and is the medical director of the coagulation laboratory at St. Michael's Hospital. She is also the co-director of the Hematology-Oncology Clinical Research Group and of the Hematology-Immunology Translational Research Theme. Her research interests include inherited and acquired disorders of hemostasis. Currently, she is involved in the study of: prediction tools for perioperative bleeding, the appropriateness of coagulation testing and new treatments for immune thrombocytopenia.
