For the safe and optimal use of human proteins

This educational course and U.S. attendee travel, lodging and registration is supported by Octapharma and the course is offered in collaboration with the Malmö Centre for Thrombosis and Haemostasis, Lund University, and Skåne University Hospital

Malmö Course 2019 Award Recipient

**Glaivy M. Batsuli, MD, Assistant Professor of Pediatrics
Emory University**

Mentor: Shannon Meeks, MD

Course Title: “Von Willebrand Disease – From Theory to Clinical Practice”

Recipient: 2016 HTRS Mentored Research Award

Dr. Glaivy Batsuli, MD received her Bachelor’s of Science Degree in Public Health from the University of North Carolina at Chapel Hill and her medical degree from the University of Pittsburgh in Pittsburgh, PA. Dr. Batsuli completed her residency training in Pediatrics and fellowship training in Pediatric Hematology and Oncology at Emory University in Atlanta, GA. She is Assistant Professor at Emory University and the Aflac Cancer and Blood Disorders Center at Children’s Healthcare of Atlanta. As a pediatric hematologist specializing in hemostasis and thrombosis, she has provided clinical care to patients with VWD for the inpatient hematology service, in benign hematology clinics, in bleeding work-up clinics, and currently in the comprehensive bleeding disorder clinic as part of the pediatric hemophilia treatment center in the Children’s Healthcare of Atlanta hospital system. Her goals for the Malmö course include expanding her knowledge of Von Willebrand Disease diagnosis and management and to increase her understanding of laboratory processing, testing, and interpretation.
