University Clinical Health in Memphis, Tennessee is looking for a physician to join the team at the UT Hemophilia and Thrombosis Treatment Center. This practice is dedicated to the diagnosis, treatment, management, and prevention of benign blood disorders including both common and rare diseases such as: Anemia, Hemophilia, Hemostasis, Thalassemia and Thrombosis, low platelets and platelet disorder (ITTP, TTP, aHUS, ET), myeloproliferative disorders, and abnormalities of iron metabolism. The clinic offers Hematology physician services, nursing, case management and social work, onsite laboratory, infusion therapy, and physical therapy. Our HTTC is one of only 141 in the nation, and the only of its kind in Memphis for the adult population.

University Clinical Health is an independent and physician-led faculty clinical practice plan of the University of Tennessee Health Science Center. We have more than 160 renowned providers spread across 19 different clinical specialties. All of our physicians serve on the faculty at the University of Tennessee College of Medicine, providing them with access to cutting-edge medical research and the latest medical treatments, and their patients with the best and most current care available.

Applicants must be eligible for Tennessee Licensure and must be board eligible or board certified in Internal Medicine and Hematology.

All qualified applicants will receive equal consideration for employment and admissions without regard to race, color, national origin, religion, sex, pregnancy, marital status, sexual orientation, gender identity, age, physical or mental disability, or covered veteran status.

Interested candidates should send a CV with letter of interest to Sandeep Rajan, M.D., Department of Medicine, Division of Hematology, University of Tennessee Health Science Center.
