**Swissotel Chicago | Chicago, IL**

Gene Therapy Workshop Registration

**Registration Deadline: February 15, 2024**

---

## Who Should Attend

This Workshop is open to professionals working in academic medicine and caring for patients at U.S. hemophilia treatment sites preparing for Gene Therapy, including:

- Physicians
- Geneticists
- Genetic Counselors
- Social Workers
- Clinical Trial Coordinators
- Nurses and Nurse Practitioners
- Pharmacists
- Regulatory Affairs Specialists
- Patient Advocates
- Other Advanced Practice Providers

## Program Details

- **April 2-3, 2024 | Chicago, IL**  
(prior to the THSNA 2024 Summit, April 4-6, 2024)
- One and one-half day educational and professional development program
- **Registration is limited to 40 medical and/or advanced practice providers** employed at U.S.-based academic medical centers or hemophilia treatment centers

## Program Goals

The goal of the HTRS Gene Therapy Workshop is to **launch a national conversation** among academic medicine and hemophilia treatment site professionals **about best practices for treating hemophilia patients with gene therapy to inform standards of care.**

Through the launch of this new Workshop HTRS and the Planning Committee strive to:

- Engage relevant U.S. Hemophilia stakeholders with state-of-the art education on gene therapy for hemophilia care
- Encourage dynamic conversations and collaborations among Hemophilia professionals that ultimately lead to the development of national best practices in gene therapy for hemophilia
